About Georgia Construction Aggregate Association

The Georgia Construction Aggregate Association encourages the highest ethical standards in all matters pertaining to the construction aggregates industry. We advocate for expanded use of aggregates to organizations that include private, public and governmental agencies; provide materials to inform the public on the production, use and value of construction aggregates; and offer programs to educate industry employees with an emphasis on safety, health, environmental compliance and community relations. This is our purpose – to serve our members, encourage innovation and advocate on their behalf in the public square.
