Signature of Cardholder: _____ Exp Date: _____

Cardholder Zip Code: _____ Security Code: _____

A Note From the Chairman

The Georgia Mining & Georgia Construction Aggregate Associations (GMA/GCAA) Joint Safety Committee would like to thank each of you for making the 2018 Safety Workshop a tremendous success. We hopefully had a positive safety impact on 440 attendees and 9 vendors. With your support, we want to have a similar impact on even more miners this year by providing a quality educational and networking opportunity.

The 2019 Georgia Mining Safety Alliance Workshop will be held at the Anderson Conference Center in Macon, GA. We will kick off our conference with keynote speaker Frank Lamson-Scribner with BASF Corporation. The educational program will feature a strong line up of speakers and quality break out sessions on topics such as Industrial Hygiene - Noise and Dust, Railroad Safety, and Drugfree Workplace Safety. There will be time built in to the program to network, visit with vendors, and participate with interactive demonstrations. We are pleased to announce that special guest Sam Pierce, Southeastern MSHA District Manager for Metal and Nonmetal, will address our companies after lunch. The afternoon session will include "Stay Out, Stay Alive" presented by Gil Rowland, KaMin Performance Minerals. The conference will conclude with Bobby Lamb, Mercer University Football Coach. Coach Lamb has encouraged thousands of people through his inspirational messages and philosophies of creating cultures of success. He will motivate our attendees while teaching life lessons and the importance of team work necessary to achieve safety goals. "One Team. One Goal. Tackling Safety."

We encourage you to take what you learn at the workshop back to your workplace and continue the outstanding safety record for the mining industry in Georgia. At the conclusion of the workshop please complete the evaluation form and provide us with feedback so we can continue to put together a program that meets your needs. We look forward to seeing you at the workshop.

**Yours in Safety and Health,
Kevin Hudson, Chairman
GMA/GCAA Safety and Health Committee**
