Question #4:

After “twisting” and “tapering”, the Fed finally “hikes” – will higher rates kill the party?

. . . and what about financial institution balance sheets?

. . . and are consumers still “deleveraging”?

Question #6:

“Fiscal cliffs” have faded (or not)? If so, where do we head politically?

How is “shared governance” working? . . . or is another DC showdown ahead?
Currents Issues in Fiscal Affairs

- Federal:
  - Shutdown – longest, done for now
  - 2017-18’s Biggest Play: Tax Reform – but 2.0 unlikely
  - Still in Play:, Keystone, Dodd-Frank, EPA, NLRB
  - Next in Play: Infrastructure
  - Always in Play: SCOTUS
  - Ongoing Play: Revising Trade
    » Bilateral vs Multilateral, Lumber deals and tariffs

- States:
  - Tax Reform Initiatives in other States slow, but SALT consideration weigh in
  - Recent gains in manufacturing facilities due to “reshoring”
  - SE states domination biz location ranking, but not exclusive.

- Local:
  - RE valuation rising = tax revenues, fiscal distress moderating
